

BRIEF - ACTIVITIES

1. Introduction

The Beckford Tower Trust (BTT) owns and manages Beckford's Tower, the last surviving building connected with the historically significant William Beckford. Located within the area of Lansdown, the building is open to the public at weekends, operating as a museum and Tower experience. Connected to the public buildings is a property leased to the Landmark Trust, operating as a holiday let. The Trust recognises an urgent conservation need to repair and conserve the Tower and is seeing this as an opportunity to develop our visitor experience, engage wider audiences and reconnect the Tower with its lost landscape, through new experiences, interpretation and access.

The initial exploratory works have been funded by Beckford Tower Trust (BTT), which has been awarded a development grant by the National Heritage Lottery Fund (NLHF) to develop their own proposals up to submission of planning and to assess their costs for the project. The outcome of this development work will influence the works to be carried out during the delivery phase, which we aim to fund through a combination of sources including a further NLHF grant, other grants and donations including that gained by direct fundraising. On completion of this development work a NLHF Round 2 grant request will be made and if successful, the conservation works and other activity plans will be funded by BTT with substantial support from its sole Trustee, Bath Preservation Trust (BPT) as well as from the NLHF.

A brief description of the elements of activities work required to complete the project is given below.

These works will be carried out in two phases, the first (the Round 2 Development Work) will provide consultation sessions with all partners that feed into the Education and Community Engagement elements of the Interpretation and Activity Plan with agreed workshop delivery content, providers and participants, to allow submission of listed building and planning applications and a Round 2 NLHF application to request further funding.)

The second will be the implementation of the works if the application is successful.

The Activities Officer will be required to work as part of a design team alongside other contractors and members of BPT staff, to provide the Trust with a coherent and costed

plan for the future Education and Community engagement programme including learning resources and interpretation elements (Phase One) and to oversee its implementation (Phase Two). The successful post holder will be responsible for providing standard activity delivery to include in particular the following:-

1. Development Phase

Scope of Works:

- Outreach and onsite sessions to introduce the project to partners
- Workshop delivery at the Tower, with existing partner groups
- Formation of and quarterly meetings with a new advisory group consisting of partners already engaged in the project
- School visits to engage both teachers and pupils with the Tower project
- Community group visits to enable creative responses to the Tower project
- Creation and management of volunteer groups to fulfil the requirements of the Activity Plan
- Engagement with the new community at Ensleigh, including outreach and Tower visits, as well as joining in with the launch events
- Working collaboratively with partner groups to contribute to the learning element of the overall interpretation design
- Develop outcomes from these sessions and other feedback, to finalise the Interpretation and Activity plan for Round 2 application

Programme:

- Submit NLHF Round 2 in June 2022
- NLHF Decision October 2022

Costs inc. VAT:

	Budget	Detail
Round 1 costs	£14,400	Includes transport, artists, refreshments and resources
Totals	£14,400	

2. Delivery Phase Scope of Works:

- Delivery of the Activity plan that will include outreach sessions, learning activity and creative outputs with school, community and other groups as identified including volunteers

Programme

- NLHF Decision October 2022
- Completion of project December 2023

Costs inc. VAT:

	Budget	Detail
Round 1 costs	£69,488	Includes transport, artists, refreshments, resources and volunteer recruitment, training and expenses
Totals	£69,488
